

THE ORIGINAL RUSSIAN RIVER VALLEY PINOT NOIR

Distinguished in 1973 as the first winery on Westside Road in Healdsburg, California, Davis Bynum was first to produce a single vineyard Pinot Noir from the Russian River Valley. The guiding principle behind the wines of Davis Bynum has always been and will forever be to let the land speak.

More than 40 years later, the heritage of Davis Bynum lives on through the hand-crafted creation of single vineyard Pinot Noir and Chardonnay wines grown exclusively in Russian River Valley.

ESTATE SINGLE VINEYARDS

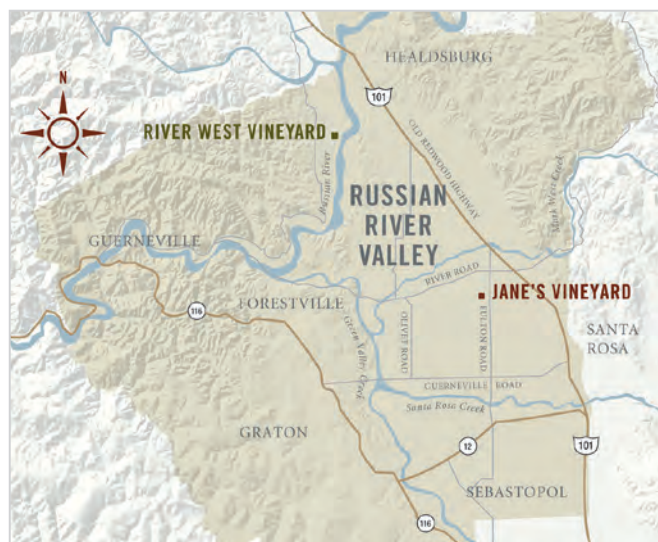

Davis Bynum's passion is in the land—the unique characteristics that each acre brings to the winemaking table. Our fascination with the particular qualities each vineyard holds led us to create a series of single-vineyard wines made to highlight the special *terroir* that sets Davis Bynum apart. Cellar-worthy and unique, these wines tell the story of Davis Bynum like never before.

JANE'S VINEYARD

Consisting of 132 acres of Pinot Noir in total, Jane's vineyard is planted to nine different clones on three adjacent parcels. Moderately well-drained Huichica soils are consisting of an acidic cobbled loam underlain by a clay subsoil, with a strongly cemented hardpan that restricts vine access to water. In early summer, the soil dries out and moisture stress begins to build, encouraging small clusters of small berries with intense flavors.

RIVER WEST VINEYARD

With 87 acres of Chardonnay in total and consisting of five different clones on two types of soil, the terrain at River West Vineyard is gently sloping, with well-drained Yolo sandy loam soils interspersed with very gravelly Cortina soils. The subsoil is deep alluvial gravels extending down several feet. As spring turns to summer and moisture becomes less available, Chardonnay vines must explore these gravels in search of water. They find abundant mineral character along the way.

SAUVIGNON BLANC VIRGINIA'S BLOCK

Opens with wonderful notes of citrus, tropical pineapple and pear and finishes with a lovely lemongrass character. This wine has fresh, bright acidity that is complemented by a richness from the small portion that spent time in old French oak barrels.

PINOT NOIR JANE'S VINEYARD

With a beautiful ruby red hue, this wine has aromas of cherry, cranberry, tea leaves, dusty oak and baking spices. On the palate, the dark cherries, red plums and vanilla characteristics shine through with balance, acidity and a nice lingering finish. Warm, bright and full of flavor, the Jane's Pinot Noir is a wonderful amalgam of fruit, spice and earth.

CHARDONNAY RIVER WEST VINEYARDS

This wine opens with beautiful aromas of baked apple, citrus and white floral. On the palate the wine opens up with brioche, lemon meringue and toasty baking spices, with a lush finish that is balanced with acidity and a rich creaminess.

CLONAL SELECTIONS

Davis Bynum's passion is in the land, and nowhere is that more apparent than in our Pinot Noir Clonal Selections. Depending on the vintage, the winemaker may choose to bottle a small amount of a single clone Pinot Noir to showcase the distinctive combination of vineyard, soil, season, and clone — a unique opportunity for a truly singular experience.
